

HANDSCRAPED BAMBOO  
Cordovan Brown

**GREENWOOD** PRODUCTS COMPANY

## WHAT IS IT?

GreenWood Handscraped Bamboo is 100% MOSO Bamboo that is harvested from the exclusive Anji Mountain Region and carefully selected only at the peak of maturity between 5 to 6 years. The core of this product is GreenWood's unique **TruGreen Advantage** core. This core is 100% engineered MOSO bamboo in a cross-fillet format with special "thread" that intertwines each individual fillet. This "thread" allows for slight expansion and contraction in the core as well as increased precision in the manufacturing process. Overall, the **TruGreen** core construction provides the most stable platform on the market while still maintaining its status as 100% Rapidly Renewable Resource.

### PRODUCT SPECS

**THICKNESS** ..... 5/8"  
**WIDTH** ..... 6"  
**LENGTH** ..... 72 7/8"  
**WEAR LAYER**..... 5.0mm  
**EDGE** ..... Beveled  
**CORE** ..... TruGreen Engineered Bamboo Core

### FINISH

Treffert HPC Aluminum Oxide with Scratch Resistant Top Coat

### INSTALLATION

Glue, Float or Staple/Nail

American Red Oak Handscraped Bamboo

## ENVIRONMENTAL INFORMATION

### LEED® CREDITS

MR 6: Rapidly Renewable Materials

GreenWood Bamboo products qualify as MR 6 (Rapidly Renewable Materials) as they are made with 100% MOSO bamboo, a rapidly renewable resource.

EQ 4.4: Low-Emitting Materials

GreenWood Handscraped Bamboo is manufactured with LEED® EQ 4.4-compliant adhesive.

### ENVIRONMENTAL IMPACT

Adhesives used in manufacturing of GreenWood products have Zero Added Urea Formaldehyde and comply with standards set by U.S. OSHA, European E0 and CARB (California Air Resource Board) Phase 1 Et 2. GreenWood products also feature high quality VOC-free finishes.
